What stands out this week

- This is the area with the most clinics not showing an anti-wrinkle price (8 of 13). That can be a deliberate choice, as prescription-only medicines can't be advertised to the public. The question is what you show instead: consultation cost, how to book, how fast you reply.
- Review counts range from 0 to 185. A clinic with lots of reviews and online booking is the easiest choice for someone comparing quickly.
- Most clinics with online booking use Fresha, Phorest, Pabau, Glowday or Cliniko.

Consultation enquiry reply times

Placeholder. Filled once a clinic subscribes (Compare and Fix). One consultation enquiry per competitor per quarter, timed and scored. We never book or hold appointments. No figures are shown here because none have been collected.
